Stampeditis --- Have You Got It Yet?

With the Stampede only ten days away, if you haven't been bitten by the Stampede bug you should get close to some of these Stampede fans and get the bug. A Stampede is always a great deal more enjoyable if you go there pepped up with Stampede fever.

This year will see a faster show than ever before. With the new fastenings on the chute gates, the horses will come out without delay and when the cowboy yells "let 'er go." There is talk of a tractor race, and this would really be a thriller to watch the tractors go chasing around the track, and believe me some of these new model ones really go. There will be the tepee race when the Indian women see who can erect a tepee quickest and prepare to start house-keeping.

There will be the usual line up of first class buckers from the Knight and Lund bunches, and others. Stock from Meeks' herds, and the usual lineup of riders, ropers and so on to round out a top flight show.

Committees have done and are doing all they can to make the Stampede a real success. It has been well advertised, the grounds and buildings have been repaired and put in shape. A first rate programme has been outlined with liberal prizes, and now, Mr. Citizen, it's up to you to make the Stampede a success. Plan to attend, and ask your friends to come and celebrate with you. A good cause is to receive aid from the profits of the show, and if everyone does their share the venture will mark another milestone in community effort in Raymond. Let's put it over.

Pres. H. F. Allen and Bishop L. L. Palmer filled a missionary appointment at the Magrath 1st Ward Sunday evening.

B.Y.U. students arriving home last week included Ralph Walker, Durrell Romeril and LeRay Anderson. Fred Romril drove to Great Falls to get some of them.

ONE THIRD FARE FOR SOLDIERS

ON EMBARKATION AND ANNUAL LEAVES ANNOUNCED BY RALSTON

Ottawa, June 16th—An arrangement to reduce railway fares to soldiers, sailors & airmen proceeding on embarkation or annual leave to one-third of the present fares was announced in the House of Commons recently by Defence Minister Ralston.

The minister said uniformed men now received a return ticket for the price of a single fare. The charge to the general public for a return ticket was twice the price of a single fare less ten per cent.

By agreement with the railway companies the new rate for annual and embarkation leave was arrived at.

The railways agreed to absorb one third of the former rate and the government would contribute the other third.

Thus the cost of the reduction would be divided equally between the government and the railways.

W. I. MEETING

The June meeting of the Women's Institute was held Thursday, June 12th, at the home of Mrs. Blanche Scoville, with twenty ladies present, four of these being visitors from Warner.

After the opening ceremonies Mrs. Frank Leavitt thanked the Institute for the lovely Afghan they donated to the Red Cross. Cards of thanks were read from some members who had received fruit and flowers during recent illnesses. The sum of \$32.50 had been collected by the group for the War Services Fund. The organization subscribed for the "Health Magazine."

Mesdames A.W. Kirkham and C.W. Lamb, who had attended the Provincial Convention in Calgary gave very interesting reports and expressed the wish that every member of the local group could have been there. Mrs. Blanche Scoville read an interesting paper on "Legislation," dealing with new laws, new taxes levied and the expropriation of land for war purposes.

The special guest, Mrs. Thos. Otto of Warner, was present to arrange for the Constituency Convention to be held in Raymond this summer. The theme of the Convention is to be "Better Citizenship."

Several musical numbers were enjoyed being, a vocal solo "My Sister and I" by Monte Scoville, piano solo "Hymn to the Eternal" by Erma Allred and another piano solo "Old Folks at Home" by Mrs. Maybelle Anderson.

A lunch was served by the hostess and Mrs. E.N. Christensen and Mrs. Miff Allred were the recipients of birthday gifts. Mrs. Doenz of Warner won the door prize. The July lawn party will be held at the home of Mrs. Jack Miller.

NEWS NOTES

Bill Greep was busy Thursday wiring the new addition to the Sugar Bowl for the light connections.

Mrs. McCarthy is home for the summer months after spending the winter in the States with her children.

Miss Nellie Coyle of Edmonton is visiting for a few days with her sister and brother-in-law, Mr. and Mrs. S. R. Card, Jr.

Stake Relief Society Conference was held in Stirling on Tuesday of this week. A large number of Raymond ladies, including the Ward Relief Society Presidency were there.

Lloyd Christensen, Calgary Power man of Claresholm, has been in Magrath and Raymond for a few days assisting with the work while Roy Overn has been in the Magrath Hospital with a light case of pneumonia.

The Town grader was busy Monday morning taking dirt back from the curb on Broadway. They dug down about ten inches most of the way up the street and if this is kept cleaned up it will make a great deal of difference in the cleanliness of the sidewalks during wet weather.

The Pendulum Swings

Even a casual reader of the news of the war in Europe must be impressed with this fact that the effort of the Allies, long retarded by lack of men and materials, is gradually gaining momentum. It is hoped that this fact will cause those fatalists amongst Britishers who see nothing but black ruin ahead of us to at least revise their talk, whether they are able to revise their thinking or not. Tell yourself, if you feel doubtful "there'll always be an England," for there surely will.

Recent reports of the widespread bombing raids on Germany and the invasion coast of France are cheering news for everyone. They show that increased planes and munitions from the United States and Britain's own factories have materially strengthened the hands of the Allies. It is cheering to read of devastating raids night after night and even in daylight on the hot spots of Nazi controlled Europe. And personally, we believe that not half the actual damage done is ever revealed in the communiques of the British High Command. At any rate, it is significant that in her talks with Russia, Germany should ask for the privilege of constructing armament factories in the land of Stalin, still feel that way. It was never intended that man's every move should be circumscribed by the evil designs of one man or set of men. We are fighting to defend freedom and as long as there is a God of Justice the defenders of freedom and democracy will never fail. We may be bumped but eventually, victory shall be ours. It is God's decree.

Not many months ago we published an old prophecy stating that Russia and Germany would fight, and that this conflict between supposedly good neighbors would materially ease the tension on the ones who had been so sorely pressed by Nazi attacks. Could this present conflagration between the Soviet and Hitler's domain be leading up to this condition? All one can do is wonder. Turkey and Germany has signed a friendship pact. Does this mean that Turkey has turned thumbs down on the Allies and decided to cast her lot with the Axis? You tell me.

Despite all these untoward events, we are definitely strong as the months go by. Trained men are increasing in numbers. Factories in the United States as well as all parts of the British Empire are increasing their per unit output. In conflicts now under way our forces seem to be getting the upper hand, and it seems that in tactical moves our leaders in the field are quicker, on the trigger than the leaders of our enemy, and our troops anticipate and out-guess their every move. While Hitler sacrifices his men by the thousands, our man power is beautifully conserved by good generalship, and live to again lend their force to the attack.

If we are too optimistic, it at least gives us a good feeling. We have never felt but what the truth would prevail, and we factories in the land of Stalin, still feel that way. It was never intended that man's every move should be circumscribed by the evil designs of one man or set of men. We are fighting to defend freedom and as long as there is a God of Justice the defenders of freedom and democracy will never fail. We may be bumped but eventually, victory shall be ours. It is God's decree.

Will Churchill Get The Torch?

Ottawa, Ont. June 19th. 1941 day to complete its winged journey across Canada, it will not be flown to England unless the loan itself is heavily over subscribed. It is hoped that the accumulated response from the public will make it possible to present the Torch to Prime Minister Churchill at his residence at 10 Downing Street, London, on Dominion day.

National Headquarters of the Victory Loan pointed out to night that the objective set was only a nominal or minimum objective and that the Loan cannot be considered a success unless it is heavily over subscribed. Confident in the patriotic and unselfish spirit of the Canadian people however, leaves no doubt that success will be over-whelming.

Rich and poor, Canadian born and naturalized, citizens of the Dominion have given concrete proof of the nation's unanimity of purpose by the way they have responded to this loan. Although the figures will be considerably increased by the close of the campaign it is noteworthy that up to Wednesday night 646,293 individual subscriptions have been received.

Among large subscriptions reported Thursday was \$65,000 from The Air Crew's Ground crews and the Administration staffs of the Royal Canadian Air Force. The R.C.A.F. conducted its own campaign in Ottawa. Although the Torch ex-Victoria arrived at Sydney on Thursday to complete its winged journey across Canada, it will not be flown to England unless the loan itself is heavily over subscribed. It is hoped that the accumulated response from the public will make it possible to present the Torch to Prime Minister Churchill at his residence at 10 Downing Street, London, on Dominion day.

STUDENTS SUCCESSFUL

Congratulations are in order to Raymond Violin students, five appearing for examinations before Sir Ernest MacMillan, Toronto Conservatory of Music examiner, who was in Lethbridge recently. Mr. MacMillan, said to be one of the severest of music critics, passed all five local students and their teacher Walter, Ozol, who has been teaching here for two years past is justly proud of the record made. Successful students were Miss Leda Jensen, John Limitski, Deitrich Gehmlich, Vernon Carner, and James Hudson. HEAVY STORM FRIDAY

Just afternoon Friday, we had a near cloudburst here for a little while. The rain started in drops about as large as a big nickel, that splashed when they hit. Then it turned to hail for a few minutes and the stones bounced around on the ground like marbles for a few minutes. Rain followed again and by four o'clock the streets were small lakes and water was standing everywhere. It cleared up in the evening but more rain fell during the night, and it was not until Saturday forenoon that the skies cleared away.

The storm was quite local, reaching only as far west as the Anderson beet dump, south to Card's Coulee and north to Wilson. Outside of this area it was quite dry, only a very light shower falling at Welington. Another light shower Sunday, didn't even settle the dust. Gardens which hardened following the long wet spell were quite nice and mellow and easy to work after Friday's shower.

DO WE APPRECIATE IT?

Here in Canada, separated as we are from Europe's war by many hundreds of miles of ocean, we are indeed fortunate. But our good fortune can sometimes make us forgetful of what is going on around us. Our present apparent apathy in this struggle stands condemned from many quarters. Soldiers, upon returning to Canada from England, have expressed their amazement at our lack of organized effort. Only recently Hon. Mitchell Hepburn, Premier of Ontario, gave utterance to this thought: "We are satisfied to do too little too late while Hitler

does too much too soon. We talk big, but we just do not deliver the goods commensurate with our organized capabilities. I am frank to confess that, in my judgment, only the stark realization of a two-ocean invasion will awaken us from our state of apathy."

Let us pray that Ontario's premier is wrong.

But it is up to Canadians to deliver the goods. Already Canada has delivered to the fighting front hundreds of men trained and equipped to fight our cause. Here in Canada it is our sacred duty to keep them supplied with the articles of war. Those of us who are not able to take up arms ourselves should help as best they can. We can add to our nation's war effort by purchasing War Savings Certificates. If we can't fight, let's lend.

Egg prices have improved considerably the last few weeks and local stores were paying thirteen cents per dozen at the end of last week. Poultry producers are hoping this condition will continue.

Mr. and Mrs. Hamp Witbeck returned last week from a two weeks holiday trip to Utah where they visited relatives and friends.

A convention of Sunday School officers and teachers of the Taylor Stake will be held in the Stake House Sunday and Elder A. Hamer Reiser, General Secretary of the Sunday Schools of the Church will lead in the discussions. Sessions are scheduled for 10 a.m. and 2 p.m.

INSTALMENTS

You can buy your Victory Bonds by instalments—ten percent down; the rest on easy terms over six months. Pledge your credit and buy all the Victory Bonds you can, on the instalment plan. When you have paid for them, your dollars will be earning a good interest return. Your canvasser, bank, trust company or Victory Loan headquarters will explain and take your order.

A Message To Girls

There is a big demand in business for young women, trained in Secretarial work. Many young office men have entered the army and their places can be filled only by young women or physically unfit young men.

Begin a Secretarial-Clerical course at once and prepare in this way to do your bit to win the war. The sooner you begin, the sooner you will be ready to earn. Forget holidays this summer. Instead, begin a Secretarial-Clerical course as soon as school is over. In this time of crisis it is not too much to ask you to sacrifice your holidays. Just consider what the women of Britain are doing today and you will enroll with us on July 2nd. School is open all summer.

You can no longer depend upon the Atlantic Ocean for protection. Any day between breakfast time and noon, a bombing plane can fly from Greenland to our own Maritimes and Quebec—a mere matter of 5 hours; to Winnipeg in less than 9 hours, to Vancouver in 10½ hours. From German-occupied France, bomb-laden planes can carry destruction to Toronto, Niagara, Ottawa and Montreal in less than 10 hours. Night and day, in the British Isles and on the sea, in and out of uniform, men defend your home from attack as surely as though they stood and fought at your own doorstep. Will you help to supply them with tools to carry on the fight—your fight? Will you help to make certain that there shall never be an "occupied" Canada?

Your Government needs some of your savings to buy more ships, planes and tanks—munitions of war that will hurry the return of our men to their homes, insure our way of life. Lend your money by buying Victory Bonds NOW!

The money you invest in Victory Bonds will come back to you with interest. Lend your money. We must win this war. Lend to preserve the things that money cannot buy. Urge your menfolk to protect your home by investing in Victory Bonds now. All that you hold dear is threatened.

HOW TO BUY

Give your order to the canvasser who calls on you. Or place it in the hands of any branch of any bank, or give it to any trust company. Or send it to your local Victory Loan Headquarters. Bonds may be bought in denominations of \$50, \$100, \$500, \$1000 and larger. WHAT BELGIUM PAYS

"La Libre Belgique" itemizes the sums which Germany has forced Belgium to pay for occupation, reaching a total of 15 billion Francs for the first year. In addition, the Nazis have requisitioned goods to the value of 2 billion without compensation, circulated unredeemable Reichskassenscheine to the value of 4 billion, forced Belgian corporations to export untold quantities of manufactures and food to the Reich with almost no compensating importation. The ordinary Belgian State budget was 11 billion Francs annually; as a result of occupation it is estimated this will reach 40 billion in 1941.
